Average Daily Attendance (ADA)	59.67	66.53
Unduplicated this Month	118	169
Registered Membership	126	169

The Boys & Girls Club Umatilla site started up summer full swing with good membership numbers. They also have a new teen girl that has been active helping other members and has already asked about what it takes to work at the Club.

The Club is running components of the National Fitness Competent, and members are working to beat the times and counts they have set for certain activities. After being able to do that, they receive a medal. They are also learning about keeping hydrated while participating in outdoor activities during the summer.

There is a cooking club during the summer and the members are learning about healthy snacks, as well as how to make them. They incorporate reading, math, and science in to the cooking lessons and they have lots of fun. They also learn about hand-washing, germs and kitchen cleaning.

The Girl Scouts continue to come each week to work with the members, which includes mentoring. And the members run a Club Store that teaches them about Money Matters.

The Club staff was trained in CPR/First Aid, Mental Health First Aid, and Food Service Training before beginning the summer session.

The Club also reaches out to teens that are at the park next door, sharing food and sports equipment and letting them know they are welcome to be a part of the Club.
