January 11, 2017

Participants for December:

	<u>December 2016</u>
Average Daily Attendance (ADA)	30.18
Unduplicated this Month	44
Registered Membership	114

The Boys & Girls Club Umatilla Site packed in a lot of activities to the month of December that included the Lunch with Santa event that was hosted at the site. We are happy when people in the community come to the Club site as we are able to help some who are in need by providing food, clothing and other items. This month we were also able to supply with members and their families with Christmas presents in order to help take that financial burden off of the families.

The Club members continue to work on homework each day after school during the Power Hour time. They can receive help and tutoring from not only staff, but the older members often help the younger members allowing them to do peer mentoring. The skills that are being learned and developed are showing on the members' school reports as the number on the A & AB Honor Rolls has grown.

The Club offers Techno Tuesday for education with technology. They also can participate in the game room at the end of the day and additional games are open for the members on Fridays when there is less homework requirements.

Some members are managing the Club Store working in stock and inventory. They have also studied the life cycle of the dollar bill during Money Matters time. Some members are working on skits for Drama Matters, and all members are participating daily in Triple Play that incorporates exercise and sports. The Club is also currently preparing to choose a nominee for the Youth of the Year award.
