Umatilla
Florida

Pool Fill Credit Request

A **sewer** adjustment may be available for filling a swimming pool. If a customer qualifies, the adjustment will be for sewer usage above the customer's monthly average (up to 20,000 gallons). The City does not give credit for partially filling a pool or "topping off" a pool. Please pay your current bill in full to avoid any late fees or termination of water service.

The following rules and restrictions apply:

- Request form must be completed.
- Request must be received within 20 days of the bill due date.
- Attach documentation verifying pool fill work, including any contractor invoices, supply purchases, etc.
- One adjustment is permitted per 12-month period.

Customer Name: _____

Service Address: _____

Customer Account #: _____
